Spring...

The magic *REALLY* happens every day!

Recognizing the magic for what it is merely takes an open perspective and a willingness to believe. And there is something about Spring, at least in the northern climes, that makes it easy to believe. Strange and seemingly impossible things happen in Spring, like the five inches of snow that fell as April was about to appear while the early spring blooms just keep on poking through.

The magic lies in other places... like *Bob Rush's* decision to 'sell himself on himself' and all the brilliance and beauty he has to contribute as you'll understand when you read **Sensing Me-value –**

A Start in Appreciation!!

It's also in the wisdom shared by *David Franklin Farkas* about the *nocebo* effect... which is the opposite of the placebo effect. You really want to make time to read more here: **Are we making ourselves sick?**

And when talking about MAGIC you never want to miss the incomparable *Tracy Swartz* as she so authentically (and in her always magically humorous style) gives us another snapshot of being **Caught With My Thought Pants Down!** When you read anything written by Tracy you will quickly discover that she has a knack for catching the magic in virtually all moments of life (Even if she doesn't catch them as quickly as she would like ☺). Now *that's* a perspective worth honing as it's a true indication of **THRIVING!**

David Little calls it like it is when he says, "As I am more connected to the **Universe** within, the thought comes to the surface to start growing into something wonderful and **magical.**" You'll want to follow David in **Creative Connection** as he inspires us to explore what it is that opens us up to seeing and using our own magic... as well as the magic around us.

It's an additional thrill to hear from a new contributor to *The Magic Happens* and in our Spring 2008 Issue you will have the magic and joy of discovering *Deliese Eros* who is destined to intrigue and expand many of us in her role as a Sex Coach. Make it a point to catch her article, **We Can Have Our Cake and Eat It Too**, for the wonder and magic of erotic energy!

Naturally there's more... **MUCH MORE**... magic and joy and THRIVING to be seen and experienced as you follow the escapades of Wayne, Kat and FRIENDS in this Spring '08 issue of *The Magic Happens*! And we'd LOVE to have you join us in sharing YOUR life and loves over at [The Magic Happens Community Online!!!](#)

Much love and appreciation...
Deliberately evolving,
