

A Note from the Editor ~ ~

There is no right or wrong way to approach New Year intentions. The thing that is important is that you choose areas of your life that matter most and that you conjure positive images that thrill you. And as you do that, you have not only resolved, in your own mind, how your New Year will be, but you have notified everyone and everything in the entire Universe and you have solicited their assistance in achieving your intentions. And from that moment forward – the entire Universe will conspire to assist you.

WELCOME 2008!

A New Year... Are you ready to let The Magic Happen?

Some of our readers may have joined us on an Outer Limits call a year ago when we were talking about "themes". Kat McCarthy and I had been discussing how we had come to realize, several years ago, that each year seemed to be accompanied by a different theme.

For me I first became aware of this at the years end when I would look back and realize there seemed to be a common thread through much of my growth during the year. One year I decided to be proactive and, in partnership with my higher guidance, purposefully and with awareness decided to *FEEL* what my theme was at the *beginning* of the year instead of the end. It was a very amazing and empowering decision. So Kat and Jackie Lee and I decided we would talk about it on one of our (then) weekly calls.

It seems only fitting that the theme of this issue of **The Magic Happens** is... THEMES!

Of course... it's that and more. Because after all...this is a magazine of *REAL LIFE* happening in *REAL TIME*... kind of our version of **PEOPLE™**

Where we are **THE STAR** of our own show! When we are willing to step up and step out, speak with authenticity and share our story, the day to day story, with an eye and heart focused on things that make us feel alive... we are the celebrity we were born to express. We are *thriving*. We invite the world to join us in the adventure of a lifetime.

So notice...

- The joys and appreciations of our *stars* [Wayne Parker](#) and [Kat McCarthy](#)
- The reminder to "Live from the Heart" by [Bob Rush](#)
- The heart, passion and whimsy of the Gourdess [Tracy Swartz](#) as she works her magic and shares her powerful intentions for 2008
- Something new...A dose of *What's Up On Planet Earth*.
- The power and wisdom gleaned from [Jackie Lee](#) as she shares her theme.
- The willingness of the renowned house healer and ghost buster [David Franklin Farkas](#) to 'think out loud about living out loud'.
- The evidence offered by [David Little](#) that the "magic is STRONG!"
- The soothing respite and reconnection to be gained taking a walk on the wild side with [Jennifer Burrows](#) along with a couple other contributions you won't want to miss.
- A new contributor sharing her 2008 theme [Doni Lynn](#)

All thriving out loud and playing full out... and so much more!

It's my intention that you stick with us until you notice the hair raising on your arms and the tickle on the back of your neck that is telling you to get up and dance... because *YOUR LIFE*, too... is a marvelous magical journey RIGHT NOW. There's nothing to wait for. Smile... you ARE on candid camera!!!!

deliberately evolving,
