

"Words don't teach. Life experience teaches"

I noticed...

The magic *REALLY* happens every day!

As I was putting together the articles in this premier issue of *The Magic Happens* I couldn't help but feel more and more excited as I moved through the various experiences of my magnificent friends [Wayne Parker](#) and [Kat McCarthy](#) and their friends. I wasn't expecting the level of joy and amazement I experienced, viscerally, emotionally, intellectually and spiritually... because after all, I've heard many of the stories before.

Then I noticed... in a very real sense we are **THE STAR** of our own show! When we are willing to step up and step out, speak with authenticity and share our story, the day to day story, with an eye and heart focused on things that make us feel alive... we are the celebrity we were born to express. We are thriving. We invite the world to join us in the adventure of a lifetime.

So notice...

- The joy of a concert appreciated by Wayne
- The opportunities allowed as Kat suddenly decides to take a trip across the U.S.
- The story of an 'army brat' and a 'farm girl' coming together, linking arms and hearts to defy convention and live like the stars they know themselves to be.
- The kindness extended to the ever-present stranger.
- The heart, passion and whimsy of the Gourdess [Tracy Swartz](#) as she works her magic.
- The power and wisdom gleaned from [Jackie Lee](#) as she shows us how to let the magic into our lives by sharing how she lets it into hers.
- The willingness of the renowned house healer and ghost buster [David Franklin Farkas](#) to 'think out loud about living out loud'.
- The evidence offered by [David Little](#) that contrast serves an amazing purpose in our lives.

- The radiant artwork of [Janette Dengo](#) that provides a 'picture' of her journey to date.
- The soothing respite and reconnection to be gained taking a walk on the wild side with [Jennifer Burrows](#)

All thriving out loud and playing full out... and so much more!

It's my intention that you stick with us until you notice the hair raising on your arms and the tickle on the back of your neck that is telling you to get up and dance... because *YOUR LIFE*, too... is a marvelous magical journey RIGHT NOW. There's nothing to wait for. Smile... you ARE on candid camera!!!!

deliberately evolving,
Mary K Weinhagen
