

## Do's and Don'ts with A Special Needs Child

Love your child unconditionally,  
Tell them every day,  
Let them be who their born to be,  
Accept their special way,  
With a loving heart,  
Share their world,  
They'll love that you do,  
And let them share your world with you,  
When they can,  
They'll let you know their own demands,  
Let them know their perfect, do this every day,  
You'll see the love they have for you in a very special way,  
Do accept what they can't do as much as what they can,

And give them praises all the time in ways they understand,  
Let them share their dance with you, whatever it may be,  
You'll put it deep within your heart for all eternity,  
Put them first in all you do,  
Then watch the way it blesses you,  
You'll see your time has been well spent,  
You'll know your child was Heaven sent,  
To you,  
The perfect answer to all you do,  
Just stick to Do's and you'll be fine,  
The don'ts will even leave your mind,  
As their spirit rocks your soul,  
They're the best rock and roll,  
Giving up or in is not your fight,  
And that will fly off in the night,  
As your bond grows more each day,  
They'll bless you in the sweetest way,  
Cherish every moment,  
Acceptance is the key,  
Love them, with an open heart,  
Love them unconditionally.
