

Introduction

Wow, can you believe it? An entire year has passed since we launched the first edition of The Magic Happens Magazine on July 1st, 2007.

Happy First Anniversary!!

Happy First to The Magic Happens and everyone associated and everyone who reads!

It's been a beautiful and successful year and we have many people to thank. Above all we would like to thank you and every other reader. Without you, none of the rest of what we do would be of much value. We would also love to thank our columnists and contributors. Without those of you who contribute articles, we three would have to create the whole thing ourselves and man would that take a lot of time. We honor you fellow writers – you are the best. :-)

It's been a year of getting clear about what we really want to accomplish through this magazine and perhaps more importantly, what the magazine wants to become. Many things still look the same and many things have changed with many more changes on the horizon.

As we continue to tweak our direction, you can also look forward to a new more powerful reader friendly format. Over the next year we will be moving away from the pdf format we have been using and heading toward an easier to navigate web page format complete with user comments and the ability to interact with the authors and the other readers.

(We need to hear from you! Would it serve you to also provide the pdf version of each article?)

When you got to the front cover of this issue, did you happen to notice a change? The secondary name of the magazine has changed.

The old name: The Magic Happens; Wayne, Kat and Friends, Thriving Out Loud

The new name: The Magic Happens; Humanity Thriving Out Loud

We felt that it was high time that we gave The Magic Happens permission to expand itself and include all of human kind.

We've had quite an education around here the last few months as many wonderful life giving projects have been brought to our attention. We want to share these remarkable projects and the people behind them with you. Beginning in October, you will see more expressions of people creating on the leading edge of life sustaining projects designed to support this beautiful blue and green ball and all of the creatures that live on it – including us!

There really is a plethora of inspired ideas to harness these days and so we will also begin offering a series of documents designed to help everyone bring their ideas to the light of day.

There are ways to get funding and bring life sustaining and green projects into our reality and we will be showing you the steps you need to take to get it done beginning in October.

Recently we changed 'The Friday Freebie Program' to 'The Friday Munch Program.' The Friday munch program will continue to send out the same awesome free gifts that Friday Freebies did except the mailings will be sent on the first and third Friday instead of every Friday. The Munch Program will also continue to notify subscribers when the new edition of The Magic Happens Magazine is posted.

Here's what's different: There is a lot of exciting things happening here at the magazine. You may have heard a rumor that The Magic Happens is going to a print format soon? All true!! So the Munch Program will also give you the opportunity to hear ground breaking

news about going print and many other magical things – as it happens. :-)

Yes, it has and will continue to be a brilliant journey here at The Magic Happens Magazine and in honor of this journey we are on with you, the feature for this 1st Anniversary Summer 2008 Edition of The Magic Happens Magazine is: Enjoying the Journey.

It is our fondest hope that we have and will continue to contribute to you through our magazine. We are honored to offer you what we can.

Thanks for being here with us to celebrate our first anniversary and this wonderful journey of love and expansion.

To The Journey!
