

Introduction

Hi and welcome to the Summer 2009, 2nd anniversary issue of The Magic Happens Magazine where Humanity Lives Out Loud.

An anniversary is a time to look both backward and forward, get view of where one has been and a vision of where one wants to go. That's definitely true here at the magic happens.

Looking back, we had a million visitors last year. We promised you changes that haven't yet come to be. We've proudly offered you articles from many different people on a wide range of subjects. We've create a

theme for the last 6 issues to make them more tightly focused on useful information with the theme for this issue being, 'Life by Design.'

We have, as far as our intentions setting out, successfully created a magazine that has value, entertainment and gobs of love.

We did a good job!!

And looking forward, there are many changes coming... You will eventually see a new presentation of The Magic Happens. We will

begin creating events sponsored by TMH with the first one coming in February 2010. 'Life By Magic' in Toronto Ontario Canada. For information, [Email Kat.](#)

It is our fondest hope that you enjoy this issue with a juicy selection of the 'Best of the Best,' from past issues. It was a tough choice, almost every article to ever be seen on TMH was worthy of this issue, but alas, would couldn't put them all in. You will also find some profound current articles to chew on.

The Autumn 2009 edition of The Magic Happens will be a fun one to create. The theme will be, 'The Harvest' and it will take a look at what we all harvest from our spiritual and life journey. It's an important thing to appreciate and so it will be a fun topic.

July 1st is Canada day and July 4th is the American Independence day. We at The Magic Happens would like to wish all the Canadian and American readers a happy holiday.

Enjoy your summer and the Summer Edition of TMH and we'll see ya again in the Autumn on October 1st.

The Magic Happens Team
